Custom software solutions for SolidWorks

Previous Projects

Ducting

Quadro has undertaken a number of ducting jobs to provide detailed fabrication drawings - from the detailing of several segmented bends or square to round transitions, to entire clean & dirty ducting systems. Our scope of supply not only includes the arrangement & fabrication drawings, but also include the supply of sheet metal flat patterns (dwg or dxf format) for laser cutting the components, plus, details for the rolling & pressing operations.

Quadro Design Pty Ltd, 533 Abernethy Rd (Cnr Ferguson St), Kewdale WA 6105 Ph: (08) 9353 2200 Fax: (08) 9353 5522 Email: quadro@quadro-design.com
